PROFESSIONAL SUMMARY

Systems Engineer and MDM architect with 10 years designing secure, large-scale device lifecycles across HIPAA-regulated healthcare and high-growth technology. Specializes in multi-OS endpoint management (macOS, Windows, iOS, Linux), zero-touch provisioning, identity/SSO/MFA, and automation — unifying disparate fleets under centralized MDM standards and cutting support SLAs through self-service engineering.

CORE COMPETENCIES

Jamf Pro (Certified) · Microsoft Intune · JumpCloud · Workspace ONE · Apple Business Manager · Zero-Touch / Declarative MDM · SSO / MFA & Identity · Bash / PowerShell / Python · REST APIs · Active Directory · macOS / Windows Server / Linux · AWS / Azure · HIPAA / NIST · CrowdStrike EDR

PROFESSIONAL EXPERIENCE

University of Washington — College of Arts & Sciences, Dean's Office IT

Jan 2023 – Mar 2026

Senior Computer Specialist – Infrastructure

- Executed a full MDM platform overhaul for 300+ macOS and iPadOS devices ahead of executive deadlines; engineered a unified security baseline (CrowdStrike, VPN, Zoom) with an opt-in self-service portal to drive adoption across decentralized faculty units.
- Built HIPAA-compliant server infrastructure and clinical workstations for the Speech & Hearing Sciences Clinic; automated provisioning and certificate renewals to improve SLA from 48 hours to 2.
- Served as cybersecurity lead — CrowdStrike incident response and NIST CSF / HIPAA audits.

Tencent — Team Kaiju Studio

Jul 2022 – Dec 2022

Systems Administrator

- Architected and deployed a complete multi-OS endpoint stack (100+ workstations) for a global gaming studio in 5 months; standardized JumpCloud MDM and Google Workspace and designed a JumpCloud Go MFA/identity model adopted as the standard for studios in Los Angeles and Montreal.

Omni Group

Feb 2022 – May 2022

DevOps Engineer (Contract)

- Automated macOS server imaging and API-driven configuration, reducing provisioning time 75% and enabling rapid fleet scaling.

Meta — Enterprise Engineering

Aug 2020 – Feb 2022

Apprentice Systems Technician

- Engineered Bomgar/Fedora Linux porting documentation adopted as a first-party integration for 5,000+ AR/VR staff; processed 200–300 monthly escalations as the team ranked #1 in ticket resolution.

Earlier Experience. Rochester Community Schools — Technical Consultant, COVID-19 1:1 device rollout (2019–2020). · Oakland University — Technology Services Mentor (2018–2020).

EDUCATION & CERTIFICATIONS

Oakland University — B.S. in Information Technology Project Management (in progress; 118 credits completed)

Certifications. Indiana University, Kelley School of Business — People Management · Jamf Pro Certified Technician · Google Cloud Digital Leader · Cloud Security & Audit Fundamentals (AWS, Azure, GCP) · InfoSec Cyber Incident Response · HIMSA NOAH Support Engineer

LEADERSHIP & OPEN-SOURCE PROJECTS

University of Washington Professional Staff Organization — Board of Directors; UW Faculty Councils — IT & Cybersecurity, Research, Benefits & Retirement (2024–2026); GrizzHacks — Director of Development.

AI Sikh Librarian — RAG pipeline (Qwen2.5) over a 758M+ word multilingual corpus with a custom South-Asian-script OCR pipeline; active users in 20+ countries. · Gurmukhifix — Python OCR post-processing library (PyPI release in progress).
