PROFESSIONAL SUMMARY

Infrastructure Technical Program Manager with 10+ years leading infrastructure, endpoint, and security initiatives across higher education, healthcare, gaming, and large-scale technology. Coordinates cross-functional teams and complex migrations, delivers scalable compliant systems in regulated environments, and pairs hands-on technical depth with communication that translates complex decisions for non-technical teams.

CORE COMPETENCIES

End-to-End Program Delivery · Cross-Functional Leadership · Infrastructure Migrations · Vendor Coordination · Stakeholder Alignment · SLA & Change Management · Risk & Compliance (HIPAA, NIST CSF, SP 800-53) · Jamf Pro · Intune · JumpCloud · AWS / Azure · Jira · Confluence

PROFESSIONAL EXPERIENCE

University of Washington — College of Arts & Sciences, Dean's Office IT

Jan 2023 – Mar 2026

Senior Computer Specialist – Infrastructure

- Primary project lead onboarding the Speech & Hearing Sciences Clinic into centralized IT — coordinated 5 clinical vendors, HIPAA compliance, and faculty relationship repair; improved SLA from 48 hours to 2 and reduced spend by \$30,000/year.
- Standardized Jamf Pro across 300+ Apple devices ahead of executive deadlines, establishing an enrollment and compliance framework adopted across additional university departments.
- Delivered a 6-month, multi-building network security migration with zero unplanned downtime and a documented framework other CAS IT teams ran independently; served as System Security Officer for CSSCR (NIST CSF, SP 800-53, HIPAA audits).

Tencent — Team Kaiju Studio

Jul 2022 – Dec 2022

Contract Lead Systems Administrator

- Led delivery of a complete gaming-studio IT environment from zero in 5 months across AWS, JumpCloud MDM, Google SSO/MFA, networking, and 100+ workstations; the JumpCloud Go MFA design was adopted by studios in Los Angeles and Montreal.

Omni Group

Feb 2022 – May 2022

Contract DevOps Engineer

- Automated macOS imaging and configuration via shell scripting, cutting per-server ramp-up from 4 hours to 1 and enabling horizontal scaling without added headcount.

Meta — Enterprise Engineering

Aug 2020 – Feb 2022

Apprentice Systems Technician

- Authored BeyondTrust Linux porting documentation adopted as a first-party solution for 5,000+ AR/VR engineers; coordinated cross-functional escalations as the PNW team ranked #1 nationally in ticket resolution.

Earlier Experience. Rochester Community Schools — district IT lead, COVID-19 1:1 rollout (2019–2020). · Chef Koochooloo — Technical PM Intern; product pitch secured \$2M from the Chilean government and Nestlé.

EDUCATION & CERTIFICATIONS

Oakland University — B.S. in Information Technology Project Management (in progress; 118 credits completed)

Certifications. Indiana University, Kelley School of Business — People Management · Jamf Pro Certified Technician · Google Cloud Digital Leader · Cloud Security & Audit Fundamentals (AWS, Azure, GCP) · InfoSec Cyber Incident Response · HIMSA NOAH Support Engineer

LEADERSHIP & OPEN-SOURCE PROJECTS

University of Washington Professional Staff Organization — Board of Directors; UW Faculty Councils — IT & Cybersecurity, Research, Benefits & Retirement (2024–2026); GrizzHacks — Director of Development.

AI Sikh Librarian — RAG pipeline (Qwen2.5) over a 758M+ word multilingual corpus with a custom South-Asian-script OCR pipeline; active users in 20+ countries. · Gurmukhifix — Python OCR post-processing library (PyPI release in progress).
