Professional Summary

Infrastructure Technical Program Manager with 10+ years of experience leading infrastructure, endpoint management, and security initiatives across higher education, healthcare, gaming, and large-scale technology environments. Experienced coordinating cross-functional teams, managing infrastructure migrations, and delivering scalable, compliant systems in regulated environments. Background includes Apple enterprise management, identity and access systems, HIPAA and NIST-aligned security programs, and operational standardization. Combines hands-on technical depth with strong stakeholder communication and a proven ability to translate complex technical decisions for non-technical teams

Experience

University of Washington - College of Arts & Sciences Deans Office IT Jan 2023 - March 2026

Senior Computer Specialist - Infrastructure

- Acted as primary project lead to onboard the Speech and Hearing Sciences Clinic (SPHSC) into centralized IT. Coordinated 5 clinical vendors (Pentax, Natus, Widex, HIMSA, IVS VALT), managed cross-team inventory audits, enforced HIPAA compliance, and repaired faculty relationships rebuilt operational trust, improving the department SLA from 48 hours to 2 hours while reducing IT spending by \$30,000/year.
- Eliminated college's endpoint management gap by standardizing JAMF Pro modernization across 300+ Apple devices ahead of executive deadlines. Negotiated phased deployment standards balancing security requirements with faculty usability concerns, establishing an enrollment and compliance framework later adopted across additional university departments.
- Coordinated a 6-month network security migration across CAS buildings, coordinating IT staff from multiple departments and managing infrastructure dependencies and stakeholder communications to transition critical systems with zero unplanned downtime while minimizing disruption to academic and research operations. The documented framework enabled other CAS IT teams to independently run migrations across remaining colleges.
- Served as System Security Officer and primary technology lead for the Center for Social Sciences and Computational Research (CSSCR) under IES and California compliance requirements. Conducted NIST CSF, SP 800-53, and HIPAA audits, identifying compliance gaps and delivering findings and remediation plans to department heads that improved security governance and reduced institutional risk exposure.

Tencent - Team Kaiju Studio

July 2022 - Dec 2022

Contract Lead Systems Administrator

- Led delivery of a complete gaming studio IT environment from zero in 5 months, managing systems administration and project management workflows across AWS infrastructure, JumpCloud MDM, Google Workspace SSO/MFA, office networking, and 100+ multi-OS workstation deployments. Enabled operational readiness ahead of studio and game launch timelines.
- Selected and architected a unified JumpCloud MDM and Google Workspace SSO/MFA stack. Designed the JumpCloud Go MFA implementation, which was subsequently adopted by Tencent studios in Los Angeles and Montreal.

Omni Group

Feb 2022 - May 2022

Contract DevOps Engineer

- Automated macOS server imaging, volume mounting, and API configuration via shell scripting. Reduced per-server operational ramp-up time from 4 hours to 1 hour, enabling horizontal server scaling without adding headcount.

Meta - Enterprise Engineering

Aug 2020 - Feb 2022

Apprentice Systems Tech

- Authored Bomgar to Fedora and Ubuntu Linux porting documentation to resolve software incompatibilities for AR/VR teams. Shared directly with BeyondTrust by Meta's Director of Enterprise Operations, the documentation was incorporated as a 1st-party supported solution serving 5,000+ AR/VR engineering employees.
- Coordinated cross-functional escalation and response operations involving enterprise engineering, policy, and trust-and-safety teams to address platform accessibility and integrity issues affecting international user communities.

Contributed to the PNW Enterprise Support team ranking first nationally in ticket resolution across Meta Enterprise Engineering.

- Mentored 20 YearUp externs and 10 enterprise support technicians, directly aiding 5 externs in converting to full-time roles. Maintained a high operational cadence, contributing to the PNW Enterprise Support team ranking first in ticket resolution throughout the Enterprise Engineering organization.

Rochester Community Schools

Aug 2019 - Nov 2020

Technical Assistant / Technical Consultant

- Promoted as district IT lead during COVID-19 response; coordinated 6 technicians across schools to complete a 1:1 Chromebook rollout and asset inventory for students without home access within the 8-week deadline.
- Developed a Google Workspace remote learning curriculum at Brewster Elementary that was adopted district-wide at the principal's request; trained other IT staff to deliver it at their schools.

Oakland University

May 2018 - Apr 2020

Technology Services Mentor

- Managed and mentored student IT technicians; while administering departmental file share infrastructure and, onboarding workflows, and operational support processes for university staff environment by reducing ticket requests by 40%.

Chef Koochooloo

Aug 2019 - Nov 2019

Technical Project Manager Intern

- Led development teams to build out mobile applications, and build out business policies for growth and led product pitch to secure \$2 million in funding from the Chilean government and Nestlé.

Leadership

Board of Directors - UW Professional Staff Organization

July 2024 - March 2026

Faculty Council Member - UW Faculty Benefits & Retirement, IT & Cybersecurity, Research

July 2024 - March 2026

Committee Member - UW College of Arts & Sciences Health & Safety Committee

Jan 2024 - Dec 2025

Director of Development - GrizzHacks

Feb 2019 - Dec 2020

Open Source Projects

AI Sikh Librarian - HuggingFace: jsdosanj/SikhLibrarian

- RAG pipeline (Qwen2.5) against a 758M+ word multilingual corpus (English, Punjabi, Urdu, Hindi, Devanagari). Includes a custom OCR pipeline for South Asian scripts and dataset publishing under CC BY-NC-ND 4.0 with active users in over 10 countries.

Gurmukhifix - PyPI release in progress

- Python library for Tesseract OCR post-processing of Gurmukhi and South Asian scripts. Confidence-based routing, SQLite learning engine, batch processing.

Education & Certifications

- Oakland University - B.S. in IT Project Management (Expected Graduation June 2027)
- Indiana University Kelley School of Business - People Management Certification
- JAMF Pro Certified Technician
- Google Cloud Digital Leader
- Cloud Security & Audit Fundamentals (AWS, Azure, Google Cloud)
- InfoSec Cyber Incident Response
- HIMSA NOAH Product Support Engineer

Skills

- **Program Management:** End-to-end delivery, vendor coordination, SLA management, risk tracking, stakeholder alignment, change management, Jira, Confluence
- **Infrastructure & MDM:** JAMF Pro, Microsoft Intune, JumpCloud, Google Workspace Admin, Apple Business Manager, Windows Server, Linux (Ubuntu/RHEL), macOS, AWS EC2, Azure
- **Security & Compliance:** NIST CSF, NIST SP 800-53, HIPAA, FERPA, CrowdStrike EDR, incident response, disaster recovery planning
- **Automation:** PowerShell, Bash, Python, Power Automate
- **Languages:** English and Punjabi (fluent), Hindi and Urdu (conversational)
