PROFESSIONAL SUMMARY

Technical Customer Success / Technical Account Management leader with 10+ years owning customer-facing infrastructure, security, and cloud-modernization initiatives across higher education, healthcare, gaming, and enterprise technology. Translates engineering and security requirements into adoption plans that reduce risk, accelerate time-to-value, improve SLAs, and build lasting customer trust.

CORE COMPETENCIES

Technical Onboarding & Implementation · Adoption Strategy · Time-to-Value · Customer Health · Executive Stakeholder Communication · Escalation Management · Renewal & Expansion · Cross-Functional Delivery · SLA Management · Risk & Compliance (HIPAA, NIST) · Jamf · Intune · JumpCloud · AWS / Azure / GCP

PROFESSIONAL EXPERIENCE

University of Washington — College of Arts & Sciences, Dean's Office IT

Jan 2023 – Mar 2026

Senior Computer Specialist – Infrastructure

- Led technical onboarding and implementation of the Speech & Hearing Sciences Clinic into centralized IT — coordinated 5 clinical vendors, HIPAA requirements, and stakeholder communications; improved SLA from 48 hours to 2, reduced annual spend by \$30K, and rebuilt trust with a previously escalated department.
- Drove adoption of a modernized Jamf Pro framework across 300+ Apple devices, balancing security with faculty usability; created phased deployment and compliance standards later reused by additional departments.
- Owned a 6-month security migration across CAS buildings with zero unplanned downtime and a repeatable framework; as System Security Officer for CSSCR, ran NIST CSF / SP 800-53 audits and presented remediation plans to leadership.

Tencent — Team Kaiju Studio

Jul 2022 – Dec 2022

Contract Lead Systems Administrator

- Delivered a zero-to-one gaming-studio IT environment in 5 months across AWS, JumpCloud MDM, and Google Workspace SSO/MFA; the identity stack became a repeatable standard adopted by studios in Los Angeles and Montreal.

Meta — Enterprise Engineering

Aug 2020 – Feb 2022

Apprentice Systems Technician

- Authored BeyondTrust Linux documentation incorporated into a first-party supported solution for 5,000+ engineers; coordinated cross-functional escalations while the PNW Enterprise Support team ranked #1 nationally in ticket resolution.

Earlier Experience. Rochester Community Schools — district IT lead; COVID-19 1:1 rollout and district-wide training curriculum (2019–2020). · Chef Koochooloo — Technical PM Intern; supported product strategy that secured \$2M in funding. · Oakland University — Technology Services Mentor; reduced recurring tickets 40%.

EDUCATION & CERTIFICATIONS

Oakland University — B.S. in Information Technology Project Management (in progress; 118 credits completed)

Certifications. Indiana University, Kelley School of Business — People Management · Jamf Pro Certified Technician · Google Cloud Digital Leader · Cloud Security & Audit Fundamentals (AWS, Azure, GCP) · InfoSec Cyber Incident Response · HIMSA NOAH Support Engineer

LEADERSHIP & OPEN-SOURCE PROJECTS

University of Washington Professional Staff Organization — Board of Directors; UW Faculty Councils — IT & Cybersecurity, Research, Benefits & Retirement (2024–2026); GrizzHacks — Director of Development.

AI Sikh Librarian — RAG pipeline (Qwen2.5) over a 758M+ word multilingual corpus with a custom South-Asian-script OCR pipeline; active users in 20+ countries. · Gurmukhifix — Python OCR post-processing library (PyPI release in progress).
