Professional Summary

Technical Customer Success/Technical Account Management leader with 10+ years of experience owning customer-facing infrastructure, security, compliance, and cloud modernization initiatives across higher education, healthcare, gaming, and enterprise technology. Proven record leading onboarding, implementation, stakeholder enablement, executive communication, and escalation management for complex technical environments. Skilled at translating security and engineering requirements into adoption plans that reduce risk, accelerate time-to-value, improve SLAs, and build long-term customer trust.

Experience

University of Washington - College of Arts & Sciences Deans Office IT Jan 2023 - March 2026

Senior Computer Specialist - Infrastructure

- Led technical onboarding and implementation for the Speech and Hearing Sciences Clinic into centralized IT, coordinating 5 clinical vendors, legacy inventory audits, HIPAA requirements, stakeholder communications, and faculty relationship repair. Improved SLA response time from 48 hours to 2 hours, reduced annual IT spend by \$30K, and rebuilt customer trust with a previously escalated department.
- Drove adoption of a modernized Jamf Pro endpoint management framework across 300+ Apple devices, aligning security requirements with faculty usability concerns. Created phased deployment, enrollment, and compliance standards later adopted by additional university departments.
- Owned a 6-month network security migration across CAS buildings, coordinating cross-department IT teams, infrastructure dependencies, and stakeholder communications. Delivered the transition with zero unplanned downtime for academic/research/technical teams and created a repeatable migration framework used by other CAS IT teams.
- Served as System Security Officer and primary technology lead for CSSCR under IES, HIPAA, and California compliance requirements. Conducted NIST CSF and SP 800-53 audits, identified control gaps, and presented remediation plans to department leadership to improve governance and reduce institutional risk exposure.

Tencent - Team Kaiju Studio

July 2022 - Dec 2022

Contract Lead Systems Administrator

- Built and delivered a zero-to-one gaming studio IT environment in 5 months, owning implementation across AWS infrastructure, JumpCloud MDM, Google Workspace SSO/MFA, office networking, and 100+ multi-OS workstations. Enabled operational readiness ahead of studio and game launch timelines.
- Selected and architected a unified JumpCloud MDM and Google Workspace SSO/MFA stack, including JumpCloud Go MFA. The implementation became a repeatable standard adopted by Tencent studios in Los Angeles and Montreal.

Omni Group

Feb 2022 - May 2022

Contract DevOps Engineer

- Automated macOS server imaging, volume mounting, and API configuration via shell scripting. Reduced per-server operational ramp-up time from 4 hours to 1 hour, enabling horizontal server scaling without adding headcount.

Meta - Enterprise Engineering

Aug 2020 - Feb 2022

Apprentice Systems Tech

- Authored Linux porting documentation for BeyondTrust/Bomgar on Fedora and Ubuntu to resolve compatibility blockers for Meta AR/VR engineering teams. Documentation was shared with BeyondTrust by Meta's Director of Enterprise Operations and incorporated into a first-party supported solution serving 5,000+ engineering employees.
- Coordinated cross-functional escalation operations across enterprise engineering, policy, and trust-and-safety teams to resolve high-sensitivity platform access and integrity issues affecting international user communities. Managed stakeholder updates, issue tracking, and response workflows while contributing to the PNW Enterprise Support team ranking first nationally in ticket resolution across Meta Enterprise Engineering.

- Mentored 20 YearUp externs and 10 enterprise support technicians, directly aiding 5 externs in converting to full-time roles. Maintained a high operational cadence, contributing to the PNW Enterprise Support team ranking first in ticket resolution throughout the Enterprise Engineering organization.

Rochester Community Schools

Aug 2019 - Nov 2020

Technical Assistant / Technical Consultant

- Promoted as district IT lead during COVID-19 response; coordinated 6 technicians across schools to complete a 1:1 Chromebook rollout and asset inventory for students without home access within the 8-week deadline.
- Developed a Google Workspace remote-learning curriculum adopted district-wide at the principal's request; trained IT staff to deliver user education and support across multiple schools.

Oakland University

May 2018 - Apr 2020

Technology Services Mentor

- Managed and mentored student IT technicians while administering departmental file-share infrastructure, onboarding workflows, and operational support processes for university staff. Reduced recurring ticket volume by 40%.

Chef Koochooloo

Aug 2019 - Nov 2019

Technical Project Manager Intern

- Led development teams building mobile application features and internal business processes; supported product strategy and investor pitch materials that helped secure \$2M in funding from the Chilean government and Nestlé.

Leadership

Board of Directors - UW Professional Staff Organization

July 2024 - March 2026

Faculty Council Member - UW Faculty Benefits & Retirement, IT & Cybersecurity, Research

July 2024 - March 2026

Committee Member - UW College of Arts & Sciences Health & Safety Committee

Jan 2024 - Dec 2025

Director of Development - GrizzHacks

Feb 2019 - Dec 2020

Open Source Projects

AI Sikh Librarian - HuggingFace: jsdosanj/SikhLibrarian

- RAG pipeline (Qwen2.5) against a 758M+ word multilingual corpus (English, Punjabi, Urdu, Hindi, Devanagari). Includes a custom OCR pipeline for South Asian scripts and dataset publishing under CC BY-NC-ND 4.0 with active users in over 10 countries.

Gurmukhifix - PyPI release in progress

- Python library for Tesseract OCR post-processing of Gurmukhi and South Asian scripts. Confidence-based routing, SQLite learning engine, batch processing.

Education & Certifications

- Oakland University - B.S. in IT Project Management (Expected Graduation June 2027)
- Indiana University Kelley School of Business - People Management Certification
- JAMF Pro Certified Technician
- Google Cloud Digital Leader
- Cloud Security & Audit Fundamentals (AWS, Azure, Google Cloud)
- InfoSec Cyber Incident Response
- HIMSA NOAH Product Support Engineer

Skills

- **Customer Success & Account Ownership:** Technical Onboarding, Implementation Planning, Adoption Strategy, Customer Health, Time-to-Value, Risk Management, Executive Stakeholder Communication, Voice of the Customer, Renewal & Expansion Support, Escalation Management
- **Program & Operations Management:** End-to-End Delivery, Cross-Functional Leadership, Vendor Coordination, SLA Management, Change Management, Process Design, Jira, Confluence
- **Cloud, Infrastructure & Endpoint Management:** AWS EC2, Azure, Google Cloud, Linux Ubuntu/RHEL, macOS, Windows Server, Jamf Pro, Microsoft Intune, JumpCloud, Google Workspace Admin, Apple Business Manager
- **Security & Compliance:** NIST CSF, NIST SP 800-53, HIPAA, FERPA, CrowdStrike EDR, Incident Response, Disaster Recovery, Vulnerability Management, Supply Chain Security Fundamentals, Cloud Security Auditin
- **Technical Enablement:** Customer Training, Technical Documentation, Knowledge Base Development, Developer Support, SSO/MFA, API Configuration, Shell Scripting
- **Languages:** English and Punjabi fluent; Hindi and Urdu conversational
